Bass Reeves

U.S. Marshal

Bass Reeves was an African American deputy U.S. Marshal who served in the late 19th and early 20th centuries. He is widely regarded as one of the most successful lawmen of the American Old West, having arrested more than 3,000 criminals during his career. Reeves was known for his sharpshooting skills, his ability to track fugitives across long distances, and his commitment to upholding the law. He overcame numerous challenges and obstacles, including racism and discrimination, to become one of the most respected law enforcement officers of his time. Reeves' legacy as a trailblazing lawman has inspired generations of law enforcement professionals and has helped to promote equality and justice for all.

Work

Software Engineer

Tech Innovations · Tech Innovations is a cutting-edge technology company that specializes in developing software solutions for businesses.
Jan 2016 – Dec 2018
San Francisco, CA

Developed and maintained web services using Java and mySQL, covering all stages of the release cycle.

- Collaborated with cross-functional teams to deliver high-quality, highly available services that met customer SLAs.
- Demonstrated proficiency in coding and experience with architectural patterns of large, high-scale applications.
- Mentored and developed junior engineers through sharing and learning.

Software Developer

Innovative Solutions · Innovative Solutions is a software development company that specializes in building cloud-based systems for businesses.
May 2017 – Apr 2019
New York, NY

Developed large high-scale microservices using service-oriented development and cloud-based systems.

- Demonstrated technical, cross-group collaboration and communication skills.
- Delivered value through a collaborative approach spanning many teams across geographies.
- Embody our culture and values.

Software Engineer

Tech Solutions · Tech Solutions is a software development company that

specializes in developing software solutions for businesses.
Jun 2018 – May 2020
Seattle, WA

Developed and maintained web services using Java and mySQL, covering all stages of the release cycle.

- Demonstrated proficiency in coding and experience with architectural patterns of large, high-scale applications.
- Delivered value through a collaborative approach spanning many teams across geographies.
- Demonstrated debugging and troubleshooting skills, with an enthusiastic attitude to support and resolve customer problems.

Software Developer

Innovative Tech · Innovative Tech is a technology company that specializes in building software solutions for businesses.
Aug 2017 – Jul 2019
Austin, TX

Developed large high-scale microservices using service-oriented development and cloud-based systems.

- Demonstrated technical, cross-group collaboration and communication skills.
- Demonstrated proficiency in coding and experience with architectural patterns of large, high-scale applications.

Software Engineer

Tech Solutions · Tech Solutions is a software development company that specializes in developing software solutions for businesses.
Oct 2019 – Sep 2021
Chicago, IL

Developed and maintained web services using Java and mySQL, covering all stages of the release cycle.

- Demonstrated proficiency in coding and experience with architectural patterns of large, high-scale applications.
- Demonstrated technical, cross-group collaboration and communication skills.
- Demonstrated debugging and troubleshooting skills, with an enthusiastic attitude to support and resolve customer problems.

Volunteer

Teacher

CoderDojo
Jan 2012 – Jan 2013

Global movement of free coding clubs for young people.

- Awarded 'Teacher of the Month'

Education

Stanford University

Computer Science
Sep 2013 – Jun 2017

Bachelor's Degree

Courses

- Programming Abstractions
- Operating Systems and Systems Programming
- Database Systems

Database Systems

Awards

Outstanding Achievement in Computer Science

Awarded by **University of California, Los Angeles**
May 2015

Awarded for exceptional performance in computer science coursework and research.

Innovator of the Year

Awarded by **Tech Innovations Magazine**
Nov 2019

Recognized for developing groundbreaking software solutions that have transformed the industry.

Skills

Object-Oriented Programming

C++   C#   Java
